

Types and Materials of Exterior Resin Parts

NOTE: A standard symbol is stamped on the underside of each resin part to show the type of material used.

Example:
HONDA
>PP<

NO.	Part Name	Material	Replacement
①	Headlight lid	PA6/PPE-M Polyamide/Polyphenylene ether	see section 23
②	Front bumper	PBT-P Polybutylene terephthalate	see page 20-58('93-'96) , 47('91-'92)
③	Front and rear skirts	PP Polypropylene	see pages 20-59 ('93-'96) , 48 ('91-'92) , 61('93-'96) , 50('91-'92)
④	Mirror	ABS Acrylonitrile butadiene styrene	see page 20-20('93-'96) , 19('91-'92)
⑤	Side sill panel	PA6/PPE-M Polyamide/Polyphenylene ether	see page 20-71
⑥	Trunk lid spoiler	UP-G Polyester unsaturated thermoset	see page 20-66('93-'96) , 55('91-'92)
⑦	Rear bumper	PBT-P Polybutylene terephthalate	see page 20-60('93-'96) , 49('91-'92)
⑧	Fuel filler lid	PA6/PP-E Polyamide/Polyphenylene ether	see page 20-68('93-'96) , 57('91-'92)
⑨	Washer Tank	PP Polypropylene	see page 20-59('93-'96) , 48('91-'92)
